Narrative

Fairmont Tower located in the Shreveport Common district of downtown Shreveport was built in 1952 as the Towne House Apartments and was renovated in 2003 as part of a LIHTC transaction and is now known as Fairmont Towers. The property contains 254 units comprised of 150 studios, 69 one bedroom and 20 two bedroom units of family housing. While the property is not age restricted, there is a large portion of the tenant base that is either elderly or disabled who benefit from the property's Section 811 subsidy. The property has 77 surface parking spaces in a surface parking lot(s) adjacent to the building and three handicapped accessible spaces will be provided as part of the renovation. The Fairmont Tower preservation project will preserve the 254 apartments for low and moderate income families and individuals, all of which will be reserved for households earning up to 60% of the area median income (AMI). At least 13 (13) units will be set aside for individuals and families requiring accessible apartments. As part of the proposed preservation of this affordable housing asset, a comprehensive renovation of the property will take place. All building systems will updated, and the building envelope will be rehabilitated including but not limited to the roof and building façade. The building interior will also get improvements including a refresh of the apartment interiors and building common areas. A complete redesign and upgrade of the first floor and common areas is planned. All improvements and upgrades will be done utilizing energy efficient fixtures, equipment and appliances. The planned renovations and improvements will be funded with the use of Historic and Low Income Housing Tax credits in conjunction with Tax Exempt bonds and HUD insured FHA 221(d)(4) financing.
