If you administer multiple crisis assistance programs (winter, summer, and/or year-round), Include all program definitions.

A crisis exists when a household's energy source for heating and/or cooling has been disconnected or scheduled for disconnection, depleted and there are insufficient resources to resolve the situation. A crisis may also include natural disaster events, public health emergencies, and supply shortage emergencies declared by state or federal government.

4.3 What constitutes a life-threatening crisis?

When an eligible household is faced with an adverse situation that jeopardizes the health and/or safety of the household members. This would include a household member that has a medical condition that require the operation of medical equipment, such as oxygen, and/or extreme weather conditions that would keep the household cool/warm.

In the event that Supplemental funds are granted or available within the year due to unforeseen circumstances (i.e. public health emergencies, etc.), LHC reserves the right to develop a separate benefit matrix to deliver bill payment assistance that meets the need of the particular crisis based on the amount of funds awarded or still available. Applicants impacted by the crisis will be eligible for Supplemental funds in addition to eligibility for regular crisis assistance.

In the event of unforeseen circumstances (i.e. public health emergencies, natural disaster, etc.), LHC reserves the right to allow past due balances to be included in the crisis assistance benefit payment. This right will be implemented by LA LIHEAP Notice and with a defined period only.

Louisiana allows for community solar participants to receive a benefit using the same LA LIHEAP benefit calculation.

Crisis Requirements, 2604(c)

4.10 Do you accept applications for energy crisis assistance at sites that are geographically accessible to all households in the area to be served?

Yes No **Explain.**

Per Section 3.3, A.1. of the Louisiana LIHEAP Service Delivery Guide, the Subgrantee must devise and plan to distribute service funds throughout the entire service delivery area. This process ensures a fair distribution of funds based on the percentage of eligible population in each geographic location. Subgrantee must be able to provide some type of weekly presence in each parish it serves.

4.11 Do you provide individuals who are individuals with a disability the means to:

Submit applications for crisis benefits without leaving their homes?

Yes No

If No, explain.

Travel to the sites at which applications for crisis assistance are accepted?

Yes No

If No, explain.

Per Section 3.3, A.4. of the Louisiana LIHEAP Service Delivery Guide, the Subgrantee shall develop a fair and consistent means by which home-bound applicants may be provided the opportunity to apply for services. Subgrantee shall make provisions for home-bound and infirmed applicants in accordance with Section 2604I (3) (B) of Public Law 97-35 by either traveling to the applicant or may allow a homebound applicant to designate an authorized representative to apply for LIHEAP services on their behalf. A signed statement by the applicant that names the authorized representative is required. The designated person should sign all LIHEAP forms using their name and the applicant's name (e.g. "Jane Doe for Mark Jones").

If you answered "No" to both options in question 4.11, please explain alternative means of intake to those who are homebound or physically disabled?

Benefit Levels, 2605(c)(1)(B)

4.12 Indicate the maximum benefit for each type of crisis assistance offered.

Winter Crisis	\$0.00 maximum benefit
Summer Crisis	\$0.00 maximum benefit
Year-round Crisis	\$1,000.00 maximum benefit

4.13 Do you provide in-kind (e.g. blankets, space heaters, fans) and/or other forms of benefits?

Yes No **If yes, Describe**

Subgrantees may provide an in-kind benefit (in accordance with the Louisiana Disaster Relief Policy), not to exceed \$1000 per household, in times of disaster relief. An explanation of the disaster should be included in the applicant's file.

The cost for disaster relief will be reimbursed to the Subgrantee. The Subgrantee should expend the funds necessary to resolve the crisis situation in a timely manner.

In the event that Supplemental funds are granted or available within the year due to unforeseen circumstances (i.e. public health emergencies, etc.), LHC reserves the right to develop a separate benefit matrix to deliver bill payment assistance that meets the need of the particular crisis based on the amount of funds awarded or still available. Applicants impacted by the crisis will be eligible for Supplemental funds in addition to eligibility for regular crisis assistance.

4.14 Do you provide for equipment repair or replacement using crisis funds?

4.16 Do any of the utility vendors you work with enforce a moratorium on shut offs?

Yes No

If you responded "Yes" to question 4.16, you must respond to question 4.17.

4.17 Describe the terms of the moratorium and any special dispensation received by LIHEAP clients during or after the moratorium period.

The utility vendors agree to accept energy benefit pledges on behalf of LIHEAP eligible customers in crisis situations facing threatened or actual interruption of services.

Per Louisiana Public Service Commission:

Disconnection during extreme weather: An electric or natural gas utility shall not disconnect service for a residential customer in a parish on a day when the following extreme weather conditions exist within that parish:

Winter: The previous day's highest temperature did not exceed 32 degrees Fahrenheit, and the temperature is predicted to remain at or below that level for the next 24 hours, according to the nearest National Weather Service (NWS) reports; or

Summer: The nearest NWS issues a heat advisory as defined by the NWS

4.18 If you experience a natural disaster, do you intend to utilize LIHEAP crisis funds to address disaster related crisis situations? Yes No

If yes, describe

Disaster Relief

LHC use of LIHEAP Funding for Disaster Relief is based on LIHEAP regulations at 45 C.F.R. 96.50(e).

Allowable uses of LIHEAP funds to deal with crisis situations, particularly with respect to assistance for home energy related needs resulting from a hurricane or other natural disaster, include:

- Costs to temporarily shelter or house individuals in hotels, apartments, or other living situations in which homes have been destroyed or damaged, i.e., placing people in settings to preserve health and safety and to move them away from the crisis situation.

- Costs for transportation (such as cars, shuttles, buses) to move individuals away from the crisis area to shelters, when health and safety is endangered by loss of access to heating or cooling.

- Utility reconnection costs

- Repair or replacement cost for furnaces and air conditioners

- Insulation repair

- Coats and blankets, as tangible benefits to keep individuals warm

- Crisis payments for utilities and utility deposits

- Purchase and installation of fans and air conditioners

- Purchase and installation of generators

All related activities must be pre-approved by LHC and will be targeted to areas covered by a disaster declaration.

8.6 What is your process for selecting local administering agencies?

In selecting a local agency, preference is given to any CAA or other public nonprofit entity which has, or is currently administering an effective program under any low-income energy assistance or weatherization program.

Program effectiveness is evaluated by considering the following factors including, but not necessarily limited to:

- 1) The extent to which the past or current program achieved or is achieving LIHEAP goals in a timely fashion;
- 2) Meeting the fiscal requirements established in regulations and state policies;
- 3) The quality of service delivered by the local agency;
- 4) The number of qualifications and experience of the staff members of the agency; and
- 5) The location and proximity to the vacant territory.

Local agencies responding to a formal request for proposals are required to attend a hearing conducted by LHC to present their proposal and answer questions.

8.7 How many local administering agencies do you use? 39

**LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP)
MODEL PLAN
Section 9 - Energy Suppliers**

Section 9: Energy Suppliers, 2605(b)(7) - Assurance 7

9.1 Do you make payments directly to home energy suppliers?

Heating Yes No

Cooling Yes No

Crisis Yes No

Are there exceptions? Yes No

If yes, Describe.

Exceptions are allowed under circumstances when a new vendor or existing vendor is not set up to receive payment directly from LHC and/or refuses to accept a pledge on behalf of an eligible applicant. The Contractor may request reimbursement for the payment made to prevent a shut-off or disconnection. There are 10 out of 152 energy vendors that are not set up to receive payments directly from the LHC. Most of these are very small vendors that refuse to sign a Vendor Agreement and provide other related documents. Applicants have minimal choice for utility vendors and must use the utility vendor in their location; therefore, LHC does not discriminate against an applicant whose vendor chooses not to sign. LHC is continuing to educate vendors in regards to the Vendor Agreement.

9.2 How do you notify the client of the amount of assistance paid?

The Hancock Energy Software (HES) generates a Client Qualification Notification letter, which is provided to the client at the end of the application process. The notification of eligibility letter certified from the HES computer system with amount shall be (1) provided to the applicant at time of application or (2) e-mailed or mailed to the applicant. For home-bound and/or disabled applicants, the notification of eligibility must occur within 15 days of the date of application. A copy of the notification of eligibility letter must be filed in the applicant's case record.

When HES determines that an applicant does not meet eligibility requirements, the request for assistance shall be denied. The HES computer system generated denial letter shall be mailed within five (5) business days of the date of application and a copy shall be filed in the applicant's case record. If applying in person, the applicant should be provided a denial letter at the time of application.

9.3 How do you assure that the home energy supplier will charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment?

The Vendor Agreement contains a provision to assure the vendor will not discriminate, neither in costs or goods supplied nor the services provided, against the household on whose behalf benefit payments are made.

9.4 How do you assure that no household receiving assistance under this title will be treated adversely because of their receipt of LIHEAP assistance?

The Vendor Agreement contains a provision to assure customers receiving assistance from the LIHEAP will not be treated adversely because of such assistance under applicable provision of State law and public regulatory requirements.

9.5. Do you make payments contingent on unregulated vendors taking appropriate measures to alleviate the energy burdens of eligible households?

Yes No

If so, describe the measures unregulated vendors may take.

Attach a copy of the template statewide vendor agreement or a policy that indicates local agreements must adhere to statewide policies and

assurances.

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) MODEL PLAN Section 10 - Program, Fiscal Monitoring, and Audit

Section 10: Program, Fiscal Monitoring, and Audit, 2605(b)(10)

10.1. How do you ensure good fiscal accounting and tracking of funds?

The LHC financial operations manual establishes the framework and procedures for budgeting, reporting, internal controls, cost allocation, and accountability as described in the costs principle applicable to the grant.

Contractors submit weekly electronic copies of the Request for Payment to LHC for their benefit payments based on eligible households and monthly Request for Payment to LHC for actual administrative, program, and client education expenditures.

LHC conducts monthly reconciliation of funds and expenditures with sub-recipients to ensure accuracy and reliability for data reporting.

All LIHEAP expenditures are tracked and monitored using the web-based software, Hancock Energy Software (HES) and MS Excel spreadsheets.

10.1a Provide your definitions of the following:

Obligation

The State of Louisiana's definition of "obligation" can be found in LA Civ Code 1756:

An obligation is a legal relationship whereby a person, called the obligor, is bound to render a performance in favor of another, called the obligee. Performance may consist of giving, doing, or not doing something.

The State of Louisiana's definition of "encumbrances" aka "obligations" can be found in the Louisiana Division of Administrations' Control Agencies Policies and Procedures Manual, Chapter 6.1.1 (Exhibit 9):

An obligation for which the State is committed, but for which goods and services have not yet been received or accepted.

Expenditures

The State of Louisiana's definition of "payments" aka "expenditures" can be found in the Louisiana Division of Administrations' Control Agencies Policies and Procedures Manual, Chapter 7.1.1 (Exhibit 9):

The liquidation of a liability and the final event in the purchasing process.

Expenditure timeframe

Louisiana obligates 90%-100% of funds by September 30th of the first year. Remaining funds are obligated or reobligated by September 30th of the second year not to exceed 10% Carryover. All remaining obligations are liquidated by December 31st following the second year. Any refunds received after September 30th of the second year are returned to HHS.

Administrative costs

The term administrative costs means costs necessary for the proper administration and management oversight of the Louisiana LIHEAP program, including all costs, both direct and indirect, associated with the general administration and coordination of the program; supportive services including accounting, human resource, and procurement; development of policies, goals and objectives; participant intake and eligibility determination; and monitoring.

All Federal funds used to administer LIHEAP activities (except for the costs associated with client education – Assurance 16) count against the 10% State limit and are considered an administrative cost.

Audit Process

10.2. Is your LIHEAP program audited annually under the Single Audit Act and OMB Circular A - 133?

Yes No

10.2a - if yes, describe your auditor selection process.

A Request for Proposals is issued every 3-5 years, and it is issued by LHC on behalf of the Louisiana Legislative Auditors Office.

10.3. Describe any audit findings of the grant recipient (i.e. State/Tribe/Territory) rising to the level of material weakness or reportable condition cited in the single audits, inspector general reviews, or other government agency reviews from the most recently audited fiscal year.

No Findings

Finding	Type	Brief Summary	Resolved?	Action Taken
1				

10.4. Audits of Local Administering Agencies

What types of annual audit requirements do you have in place for local administering agencies/district offices?
Select all that apply.

- Local agencies/district offices are required to have an annual audit in compliance with Single Audit Act and OMB Circular A-133
- Local agencies/district offices are required to have an annual audit (other than A-133)
- Local agencies/district offices' A-133 or other independent audits are reviewed by Grant recipient as part of compliance process.

- Local agencies and district offices are required to have an annual audit in compliance with Single Audit Act and OMB Circular A-133

Compliance Monitoring

10.5. Describe your monitoring process for compliance at each level below. Check all that apply.

Grant recipients have a policy in place for appropriate separation of duties and internal controls.

- Internal program review
- Departmental oversight
- Secondary review of invoices and payments
- Other program review mechanisms are in place. Describe:

LHC utilizes the available reporting system of the Hancock Energy Software (HES) to monitor contractor's production and service delivery to timely ensure all contractors are maintaining service delivery in accordance with contractual obligations.

Local Administering Agencies/District Offices:

- On - site evaluation
- Annual program review
- Monitoring through central database
- Desk reviews
- Client File Testing/Sampling
- Other program review mechanisms are in place. Describe:

In the event of a natural disaster, statewide pandemic, or other emergency, LHC may adapt monitoring methods as a result of the event and the Agencies' resources. Those methods will be determined based on circumstances surrounding the event and the associated timelines.

10.6 Explain, or attach a copy of your local agency monitoring schedule and protocol.

Louisiana Housing Corporation (LHC) has adopted a systems approach to monitoring Contractors for compliance with applicable regulations and achievement of performance goals.

Program activities are monitored both electronically and by conducting on-site visits annually. The State mandated software is used to record application input and monitor Contractor's production, i.e., how many applications are taken in a given time frame; how many of those

applications were Heating/Cooling applications; how many were Crisis applications; how many households were served; and how many priority members were included in those households. We are also able to monitor the rate of benefit delivery to the specific service area. This information is utilized, to not only monitor the rate of service delivery, but also the areas being served. Those areas can be identified within a service provider's geographical service area, needing extra attention and outreach.

During the on-site monitoring visits, the physical files are reviewed for documentation of various program mandated activities, such as:

- (A) Written policies and procedures that prohibit discrimination in both service delivery and employment,
- (B) Compliance with Minimum Wage laws,
- (C) Written policies regarding grievance procedures for both applicants and employees,
- (D) Written policies regarding providing services to eligible applicants on a first come, first served basis,
- (E) Written policies that document adherence to written Program Guidelines approved by Louisiana Housing Corporation,
- (F) Documentation of employee training on program guidelines,
- (G) A review of various documents that demonstrate program outreach activities including newspaper ads, radio and/or television advertising, copies of any printed material distributed in the community to applicants and potential applicants, social media,
- (H) A review of Client Education material distributed to applicants regarding energy conservation activities,
- (I) A review of a random sample of applicant files to verify the collection of required support documentation from eligible applicants, including income, vulnerability of the client for the cost of the energy bill, confirmation of residence at the service address indicated on the bill, copies of Social Security Cards or other government documents that contain social security numbers for each member of the household being served,
- (J) Written policies and procedures to detect, minimize, and eliminate waste, fraud, and abuse.

Eligibility and benefit determination is handled through the web-based computerized application system adopted by the LHC. The program is designed to calculate benefit based on parameters that are entered at the state level and that are unalterable at the service provider level. Benefit calculations are based on income levels for each household, the number of eligible household members, and the identification of priority members of the household, i.e., persons over 60 years of age, persons disabled, or persons under the age of 6. The benefit calculation is totally, automated requiring only data input from the agency provider. Eligibility is also determined by the same system utilizing social security numbers of applicants and flagging those applicants or household members that may have received a benefit within the prohibited timeframe. Applicants may currently apply for non-crisis benefits once in the heating season and once in the cooling season, and if necessary, applicants may also apply for a crisis benefit once in a twelve month period.

10.7. Describe how you select local agencies for monitoring reviews. Attach a risk assessment if subrecipients are utilized.

Site Visits:

LHC, as the state grantee, conducts annual on-site compliance monitoring visits to all LIHEAP contractors.

Desk Reviews:

LHC staff conducts ongoing desk monitoring of agency reports, budget tracking and statistical reports, and rate of expenditures.

10.8. How often is each local agency monitored? Please attach a monitoring schedule if one has been developed.

Annually

10.9. How many local agencies are currently on corrective action plans? 0

Section 16: Performance Goals and Measures, 2605(b) - Required for States Only

16.1 Describe your progress toward meeting the data collection and reporting requirements of the four required LIHEAP (Benefit Targeting Index, Burden Reduction Targeting Index, Restoration of Home Energy Service, and Prevention of Loss of Home Energy Service). Include timeframes and plans for meeting these requirements and what you believe will be accomplished in the coming federal fiscal year.

LHC has worked with APPRISE, our HES software Developer, and LHC Technical Support department to collect the required performance data. There is still some trouble converting and matching the data received from the vendors to achieve an unduplicated count. The recent increased number of supplemental grants has also increased the difficulty in achieving an unduplicated count due to the extremely large data sets.

Louisiana completed the report internally for FY2023, and it was accepted May 2024. In October 2024, we will begin requesting vendor data for FY2024 and anticipate continued improvement in data collection.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. The prospective participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

Section 19: Certification Regarding Drug-Free Workplace Requirements

This certification is required by the regulations implementing the Drug-Free Workplace Act of 1988: 45 CFR Part 76, Subpart, F. Sections 76.630(c) and (d)(2) and 76.645(a)(1) and (b) provide that a Federal agency may designate a central receipt point for STATE-WIDE AND STATE AGENCY-WIDE certifications, and for notification of criminal drug convictions. For the Department of Health and Human Services, the central point is: Division of Grants Management and Oversight, Office of Management and Acquisition, Department of Health and Human Services, Room 517-D, 200 Independence Avenue, SW Washington, DC 20201.

1. By signing and/or submitting this application or grant agreement, the Grant recipient is providing the certification set out below.
2. The certification set out below is a material representation of fact upon which reliance is placed when the agency awards the grant. If it is later determined that the Grant recipient knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, the agency, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act.
3. For Grant recipients other than individuals, Alternate I applies.
4. For Grant recipients who are individuals, Alternate II applies.
5. Workplaces under grants, for Grant recipients other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the Grant recipient does not identify the workplaces at the time of application, or upon award, if there is no application, the Grant recipient must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the Grant recipients drug-free workplace requirements.
6. Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios).
7. If the workplace identified to the agency changes during the performance of the grant, the Grant recipient shall inform the agency of the change(s), if it previously identified the workplaces in question (see paragraph five).

Criminal drug statute means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance;

Employee means the employee of a Grant recipient directly engaged in the performance of work under a grant, including: (i) All direct charge employees; (ii) All indirect charge employees unless their impact or involvement is insignificant to the performance of the grant; and, (iii) Temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the Grant recipients payroll. Lauren Holmes: “Good morning, I’m calling this Hearing to order at 10:30 A.M.

I would like to thank you for joining us for the Federal Fiscal Year 2025 Louisiana Low Income Home Energy Assistance Program (LIHEAP) Model Plan Public Hearing. My name is Lauren Holmes, and I am the Program Administrator for the Louisiana LIHEAP and Weatherization programs.

The Proposed 2025 Louisiana LIHEAP Model Plan was posted to the Louisiana Housing Corporation’s website on October 15, 2024 for public review and response.

Louisiana’s LIHEAP program consists of a Heating Assistance program that runs November 15 to March 15, a Cooling Assistance program that runs April 1 to September 30 or until funds are expended, a year round Crisis Assistance program, and a Weatherization Assistance program that runs July 1 to June 30. No changes have been proposed to these time frames this year.

The allocations of funding are as follows:

- Heating Assistance 25.00%
- Cooling Assistance 45.50%
- Crisis Assistance 10.00%
- Weatherization Assistance 7.00%
- Administrative Expenses 10.00%
- Assurance 16 (Client Education) 2.50%

The LIHEAP Model Plan form was updated this year by the U.S. Department of Health and Human Services. Therefore, the Plan includes some new and/or revised sections that required additional State explanation. However, no program requirements are impacted.

As of this hearing, we have not received any comments in writing.

And at this time, we will open the hearing up to any comments or feedback.
