234 Base Limits for Elevator
Type projects As Of
3/17/2022

The following limits are the maximum amount of HOME Program funds that can be invested in an activity on a per unit bases. To get to the final limit amount LHC has taken the base limit that is published annually in the Federal Register and multiply it by the appropriate percentage. The area multiplier is to be used for all localities in the state if only one city has been named in any state. If multiple cities are named in any state, use the multiplier for the city closest to the location of the city named in the Notice. For Louisiana HUD has designated two cities New Orleans and Shreveport. LHC has determined which Parishes are closest to each and applied the appropriate limit in the table below. The figures are based on information sent to all PJs via email on April 4, 2022 and made effective March 17, 2022.
