Lighting and Water Fixtures (Online Video)

This free online class will help you increase your home's efficiency without having to do a lot of work!

Drywall Repair \$75

This quick class will help you learn how to patch and refinish walls on your own!

COURSE ENROLLMENT

Any pre-scheduled course will be listed on the website: <https://bit.ly/waptraining>. If a registration link is not available on the event, please call or email the center coordinator to register.

If there is a course you're interested in taking that is not listed, please contact the center to request a date. Some courses can be offered to small groups; course discounts are available for groups of three or more. Courses need to be scheduled at least two weeks in advanced to guarantee materials and certification requirements are met.

The center can also be rented as a facility. Please call to inquire further.
